

The new WOW factor in tile..

How to sell it & how to install it!

Tuesday, May 18, 2010
5 to 7 pm

Beaver Tile and Stone
24700 Drake, Farmington Hills 248.476.2333

Join us at Beaver Tile and Stone as we learn about some of the newest tile applications to hit the market, including green options.

Then it's time to get dirty, and join the experts in a hands-on training session in laying tile, primarily focusing on new installation products. We will be doing mock up floor and shower installations and discussing waterproofing, expansion joints and anti fracture underlayment membranes. We also will have a rep on hand from Florida Tile, which is a Green Guard Certified manufacturer.

Tile is the key to successful remodeling in most kitchen and bathroom projects, as well as other living areas. Investing your time in this two hour program will give you the information you need to answer your customers' questions and win more work!

Special thanks to our sponsor,
