PROJECT > Kitchen / Bathroom / Exterior

This charming quad-level home received a facelift both inside and out. A fresh roof, brand new vinyl siding and aluminum soffits highlight the exterior of the home. New Andersen windows and sliding glass doors allow plenty of light to accentuate the accompanying full kitchen remodel. The space features quiet and durable 16" x 16" DuraCeramic tile flooring, Merrilatt cabinetry, Cambria quartz countertops, a subway-style tile backsplash, and bright new paint throughout. Down the stairs reveals what was once a small, crowded half bathroom. The space has grown significantly and now includes a fiberglass surround shower where a closet used to be. Also be sure to admire the refinished oak hardwood on the stairs leading to the home's top floor and the deck off the kitchen which was created using "low maintenance" and green-friendly AZEK decking. We're proud to display how to give a home a sharp makeover while maintaining affordability and classic style.

DIRECTIONS > From Downtown Ann Arbor: Head South on Main Street. Continue straight through the intersection at Stadium Blvd. After passing Pioneer High School, turn right at the light onto Scio Church Rd. Turn left at the light onto S. 7th Street. Turn left onto Lans Way. The home will be on the left at 628 Lans Way.
