PROJECT > Remodel / 1st Floor Addition

Texture, color and light come alive in this newly remodeled home by KLA Development. By raising the roof, making the footprint only 250 sq. ft. larger and adding 7 skylights, we utterly transformed this former 1940's ranch home from simple to fabulous! Monotonous lines and segregated spaces were replaced with interesting angles and an open floor plan— KLA signature design features.

A redesigned front entry and built in shelves draws you into a remodeled modern living and kitchen space that radiates under the glow of a clearstory. The former living room was reworked to create a small, yet functional master bedroom suite with a walk-in closet and master bath. Cozy bonsai room in the rear, elevates the status of this space from “pass-through” to a destination in itself. The result is a retro style living sanctuary fused with minimal modern space. Think New York gallery dwelling hiding in one of Ann Arbor's traditional neighborhoods.

Come see the difference!

DIRECTIONS > From Packard Rd. and E. Stadium Blvd., proceed south on Packard Rd. to Kensington Dr. Turn right onto Kensington Dr. and proceed to 1227 Kensington Dr.
