SHOWROOM > Kitchen / Bathrooms

Whoever said "one size fits all" never walked a mile in my shoes.

Fact is, everyone's size, ability and creature comforts are different.

So when remodeling, the owner's needs as well as their family must be considered. Dad wants a faucet tall enough to fill a spaghetti pot. Grandma needs lever handles. Kids prefer a bath tub. Mom likes a stand-alone shower stall. That's "Universal Design" remodeling – making a home more comfortable, user-friendly and safe for all sizes, ages and abilities.

Visit Wittock Kitchen & Bath showroom, grab a refreshment and see exclusive presentations by the Kohler Company, Greater Home Repairs & Remodeling, and Wittock experts.

How will you blend Universal Design techniques into your upcoming project?

Be bold! Be independent! Be yourself!

DIRECTIONS > West side of Old Woodward in Birmingham, just North of Lincoln.
